Fun Facts
About Gabi

Gabi has a 5 year old son that she is raising here in Chico. She is currently attending school in Redding to become a medical assistant. Before working here she did not see herself in a job like this but now she knows it is the right kind of work for her and can not imagine doing anything else. Her compassion for our residents is truly appreciated.

Gabi loves being with her son, spending time outdoors, and drawing. She feels close to the residents because of her personal experience of having a grandmother with dementia.
